MINUTES OF SPECIAL TOWN AND TOWN SCHOOL DISTRICT MEETING

July 20, 1948

The meeting was called to order by Moderator Paul White at 8:00 P. M., at the Dorset Village Hall.

The warning was read by the Moderator.

Carleton Howe explained the condition of the schools and the proposed plan for relief.

Edwin L. Bigelow also explained the plan as drawn by Payson Webster of Rutland.

Ford Shroder suggested that Article 2 should read (to borrow up to \$12,000.00 rather than to borrow the sum of \$12,000.00). He also told that they might make a saving by using the equipment to furnish the new class rooms, from the outlying schools. He also told of other alternatives to the school situation.

Fred Whittemore told of some of the advantages of a central school over the present mode of schools. He stated that it gave a better association of children and that the teachers could give better teaching by having only two grades rather than four as they do now.

After some other discussion David Gilbert made the motion that they cease debate and vote on Article one. John Stannard seconded this motion and it was so voted.

Art. 1. To see if the voters of the Town School District will vote to install two classrooms on the 2nd floor of the present Village School Building.

REPORT OF SUPERINTENDENT OF SCHOOLS

Feb. 8, 1949.

Members of the Dorset School Board:

Several events of the past school year have made it one of the most progressive for Dorset's schools.

The renovation of the two buildings on each side of the town has made a four-room building of the Village school and provided the East Dorset school with a new heating plant and sanitary toilet facilities.

The adoption of a new type of school orders and the plan of having one director responsible for all payments and the bookkeeping for the school board instead of the former system of all three directors writing orders and keeping an account is a most welcome procedure.

New texts in Arithmetic and English have been purchased for the upper grades to replace outdated ones that had seen ten years of service, and they will be bought for the other grades before another school year starts.

The unconditional promotions of one grade at the end of the school year in June were 85.9%, which compares favorably with an average of 77.3% for the state as a whole. The achievement test given last May to the pupils of the upper four grades found 83.3% of them at or above grade which is a good record and placed Dorset as the second highest town in the District.

The renovation of the halls at the East Dorset school was not completed, and they should be finished as soon as possible. It is unfortunate that the large outside doors open directly into the school hallways because they let in so much cold air in the winter months. The small verandas could be closed in as a means of preventing that. It would seem as though the East Dorset school should have lunch room facilities equal to those at Dorset Village.

While the improvements made the past year constitute a long stride toward the betterment of the schools, those interested in good schools must not overlook the fact that there is still opportunity to proceed further.

Respectfully submitted,

EDWIN L. BIGELOW,
Superintendent of Schools.
